Captains recap
Training ideas

- training rides should be zone 3, not zone 4
- reduce the number of stops
- shorter sunday rides later in season
- group kids by color instead of letter
- Tuesday rides focus on the technical
- Pelo counts as a practice, and focuses on intervals
- Thursday rides are about rest and tactics, esp during race season

Have at least one classroom session on race strategy, and have a recap before each race and a post-race debrief

Coaches email kids after the race and say "time for your race report! phone dictation is great!"
